	gris		wandering sky		mythic grass		blurred chaos		CORPs d'arbre		AS NIGHT

Innovative. Iconic. Incomparable.

Welcome to the world of Seche, where innovation and high-performance define every nail product beginning with its star top coat.

Establishing a benchmark in 1991, Seche Vite® Dry Fast Top Coat quickly picked up a fiercely loyal following among nail technicians and consumers, thanks to its now-patented single procedure technology that promotes faster drying.

CLEAR CRYSTAL CLEAR BASE COAT, 0.5 OZ

Seche Clear Base Coat is a crystal clear base coat that creates an unsurpassed adhesion to all natural, artificial applications/extensions such as gels, fiberglass/silk and acrylic nails. Can be used on natural nails, nail enhancements and pedicures.

VITE DRY FAST TOP COAT, 0.5 OZ

Seche Dry Fast Top Coat is a must for oily nails or nails that tend to chip easily. The patented formula allows the top coat to penetrate through the nail lacquer to the base coat, forming a single solid coating over the nail plate for a much more durable finish. Guaranteed not to yellow while leaving nails silky, stronger and resistant to chipping and peeling. Can be used on natural nails, nail enhancements and pedicures.

FORTÉ STRENGTHENING TREATMENT 0.5 OZ

A real game changer—Forté lays the foundation for achieving and maintaining healthy nails! This miracle treatment acts as a protective shield, mending damaged nails from the inside out. With each application, strengthening properties are reinforced and nails are restored to a healthier state, when used consistently over time.

Forté masks imperfections and will smooth out uneven nail beds, creating a superior surface that greatly increases polish adherence, so manicures last even longer.

VIVE INSTANT GEL EFFECT TOP COAT, 0.5 OZ

Bring your manicure to life with Seche VIVE Instant Gel Effect Top Coat. This specially formulated fast drying top coat delivers the plumping effect of a gel in a glossy, high shine without the use of a UV/LED light! The salon worthy manicure removes easily with any acetone or non acetone nail polish remover.

LOVE YOUR NAILS

HOW DOES LYN'S CH2OLOR COMPLEX WORK?

Fingernails are made of keratin and continuous polish can stain and otherwise discolour the nail.

LYN lacquer is created from a revolutionary new formula known as Ch2olor Complex which creates a healthy, water and air permeable web of colour for vibrant long lasting results.

LYN's unique permeable formula allows water and air to seep through the lacquer onto the nail.

This revolutionary technology not only helps your nails breathe under varnish, it also keeps them clean and healthy.

Now you can enjoy long lasting vibrant colours for days without the harmful effects caused by regular nail polish.

Love Your Nails team has worked closely with an expert formulator based in France to create a revolutionary nail lacquer formula known as Ch2olor Complex. This formula allows for water and air to seep through the lacquer onto the nail providing high quality and quick drying nail enamel that is healthier than regular nail lacquer, diminishing chances of nail stains caused by lack of exposure to sun and air whilst keeping the same colour vibrancy. In addition to being the healthier option to regular nail polish, Love Your Nails is so that all women can experience beautifully painted and healthy nails.
